**Miracle of Love® Launches Powerful New
5-Day Seminar Format**

Miracle of Love Seminar® has been revamped to a streamlined 5-day format which maintains the power and potency of the original seminar.

(Denver) – For nearly 20 years the Miracle of Love® Seminar has been regarded as one of the most powerful transformational workshops available. The seminar is now available in a new, shorter, 5-day format that offers all the power and healing-potential people have come to expect.

Created by Modern-Day Spiritual Master, Kalindi, the Miracle of Love Seminar has provided the opportunity for thousands of people to experience profound healing and deep spiritual transformation.

Designed around a meditation practice that has been developed to support transformation of body, mind, heart and spirit, the Miracle of Love Seminar provides a supportive environment in which to heal past pain and suffering, and to reconnect deeply with the truest part of yourself, and with the pure love of God.

Due to the rapidly evolving world consciousness, seminar participants are now reaching great spiritual depth more quickly than ever before. Knowing this, and that people often have less time to devote to personal and spiritual growth in this fast-paced society, Kalindi was recently inspired to revamp and streamline the seminar.

A disciple of Kalindi who was personally trained by her, Cole Kaplan, has led Miracle of Love Seminars worldwide for more than a decade. When asked about the new 5-day format Cole explained, “What I’m seeing is that it doesn’t matter what faith or spiritual background people have, they can go to greater spiritual depth at a faster pace than ever before, and particularly with this new format. What’s so incredible about this seminar is not only the depth of connection that people find, but also the experience and tools they take with them into their lives to continue to transform materially and spiritually at a rapid rate. People let go of so much emotional baggage and learn how to live a life that is passionate, alive, loving, and connected, without the common influences of negativity, judgments, limiting beliefs and discouragement.” Cole says, ‘I’ve tried many modes of

transformation, but I've never seen anything as powerful and long-lasting as the results that people get from the Miracle of Love Seminar.'

Founded in 1991, the Miracle of Love Seminar was first offered in San Diego, CA with 16 participants and 7 staff. Since that time more than 5000 people have participated. Demand for the seminar has grown and regularly scheduled seminars are now offered at various locations throughout the United States and Europe, in South America, and Australia.
